

Al Harrison COMPANY

The Al Harrison Company is continually working to be at the forefront of the latest technological innovations and safety standards to ensure peak quality produce for their clients. With growers throughout Mexico and the United States, Harrison can provide a year round supply of fresh fruits and vegetables. Clients are rewarded with value added, volume oriented promotions during key times of the year on the most popular melons and vegetables.

Staying on top of industry demands is very important to us, so we are leading the way with uniform sizing and packaging, utilizing the latest equipment available. This guarantees that buyers will get the exact product and size they order.

Our commitment to food safety is top priority — from the growers' fields to our packing and shipping warehouses, we are working hard to make sure our standards are the highest in the produce industry. We work closely with our growers and have them sign a contract stating that they will follow FDA-approved agricultural practices, guaranteeing all safety requirements are met.

Al Harrison Produce is proud to be certified by Primus Labs and be members of FPAA, NWA, WGA, United Fresh, NWPB and Bluebook.

Our Commitment to the Industry
